

How to Apply DuoDerm™ (pressure patch dressing)

DuoDerm™ Extra Thin by ConvaTec®

Compressive colloidal dressings minimize swelling and bruising after lower eyelid surgery and help control the fluid component of “malar bags” also called “festoons”.

Available in Amazon

DuoDerm Hydrocolloid Dressing 187955 4 X 4" Box of 10, Sand

Color:Original Version

Size:10 Count (Pack of 1)

Steps:

1. Fold in thirds perpendicular to the central crease.
2. Cut along the seams and edges.
3. Expose the backing and cut the DuoDerm in half.

Placement for Festoons:

Maintain elevation/suspension:
